QPON FF SERIES

Flat Face Circular Coupons

Product Overview

QPon is a high-quality, reliable solution designed for cathodic protection applications. Featuring a circular flat surface crafted from polished low-carbon steel, QPon ensures an exact surface area for accurate measurements and performance. The steel coupon is housed in a durable ABS plastic case for added protection and equipped with robust THHN wires for secure connections.

Available in multiple sizes (1, 5, 10, and 20 cm²), QPon caters to various project requirements, making it an essential tool for professionals in the cathodic protection field. Whether for monitoring or assessment, QPon delivers precision and durability, supporting effective corrosion control strategies.
